

# STRONGLITE LIDS

Available in P5 P6 P7 P8 P9

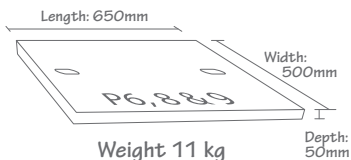

**CLASS C**  
Concrete eq.  
up to  
5,000 kg

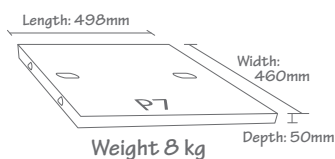

## P5 Stronglite Lid

## P6, 8 & 9 Stronglite Lid

## P7 Stronglite Lid

Developed here in Australia, the **Stronglite Lids** combine industrial strength solutions using polyurethane resins with high grade fibrous mesh materials. The surface is finished with the best Non Slip Rating (R13) coating.

UV stabilised and UV rated **Stronglite Lids** can be custom made to colour match concrete, bitumen or any colour or logo on request.

The **Stronglite Lids** won't crack, break or be damaged with Class C rating.

The **Stronglite Lids** P5 is 20 kilos lighter, the P6, 8 & 9 is 19 kilos lighter and the P7 is 20 kilos lighter, which meets the strict industry OH&S compliance regulations.

The **Stronglite Lids** will save you time and money, making **Stronglite Lids** the only choice lids suitable for your installation.

## Specifications

- Australian Standards AS3996
- Australian Made
